ALMA MATER

Honor to the Black and Orange!
Sing the glad refrain,
Loyal to our Alma Mater,
Ever we'll remain.

Days with her we'll e'er remember,
Though our lives be long,
Here's to her whose name we'll ever
Cherish in our song.

Refrain:

Alma Mater! Alma Mater!
All our vows renew.
Hail to thee, Northampton High School
We will all be true.

OUR SENIOR YEAR

And so, with cap and gown, we walk
Sedately down the aisle;
And focus back across the year,
Reminiscing with a smile.

We think of all our teachers, whom
We'll never see again;
Those teachers helped us to become
Ladies and gentlemen.

We've learned our lessons fairly well,
And some we e'en enjoyed;
To think that once we were confused —
We've come across that void.

And now it's time to face the world,
That big and frightening planet;
Can't let you down, Northampton High,
We'll just go out and win it.

Harry Rice

No candidate more fitting than Harry Rice could possibly have been selected as the first of our classmates to bring honor upon our school.

He was the only boy of the first graduating class from "Alliance High School" in 1902. Mr. Abner Buck was the sole teacher. He graduated from Lafayette College, then returned to become proprietor of the Quality Print Shop, the family business, at 1910 Main Street.

On July 26, 1904, he was elected first president of the "Alumnae and Alumni of the Central High School of Alliance," formed by seventeen graduates. In 1909, it became the "Alumni Association of Northampton High School."

Being ambitious, he established the Easton Printing Company in 1917, selling the Quality Printing Company to the late E. J. Royer in 1920. He devoted all his time to the Easton Printing Company, which he expanded into one of the largest of its type in this section of the state. He never forgot his native Northampton and continued to support it and his school throughout his life.

Mr. Rice died July 28, 1955. His wife, the former Bessie Nace, of Seemsville, resides in Easton. There are three children; Irene, William, and Malcolm, who now heads the firm. Mr. Rice still roams the halls through his nephew, our own Mr. Al Laubach.

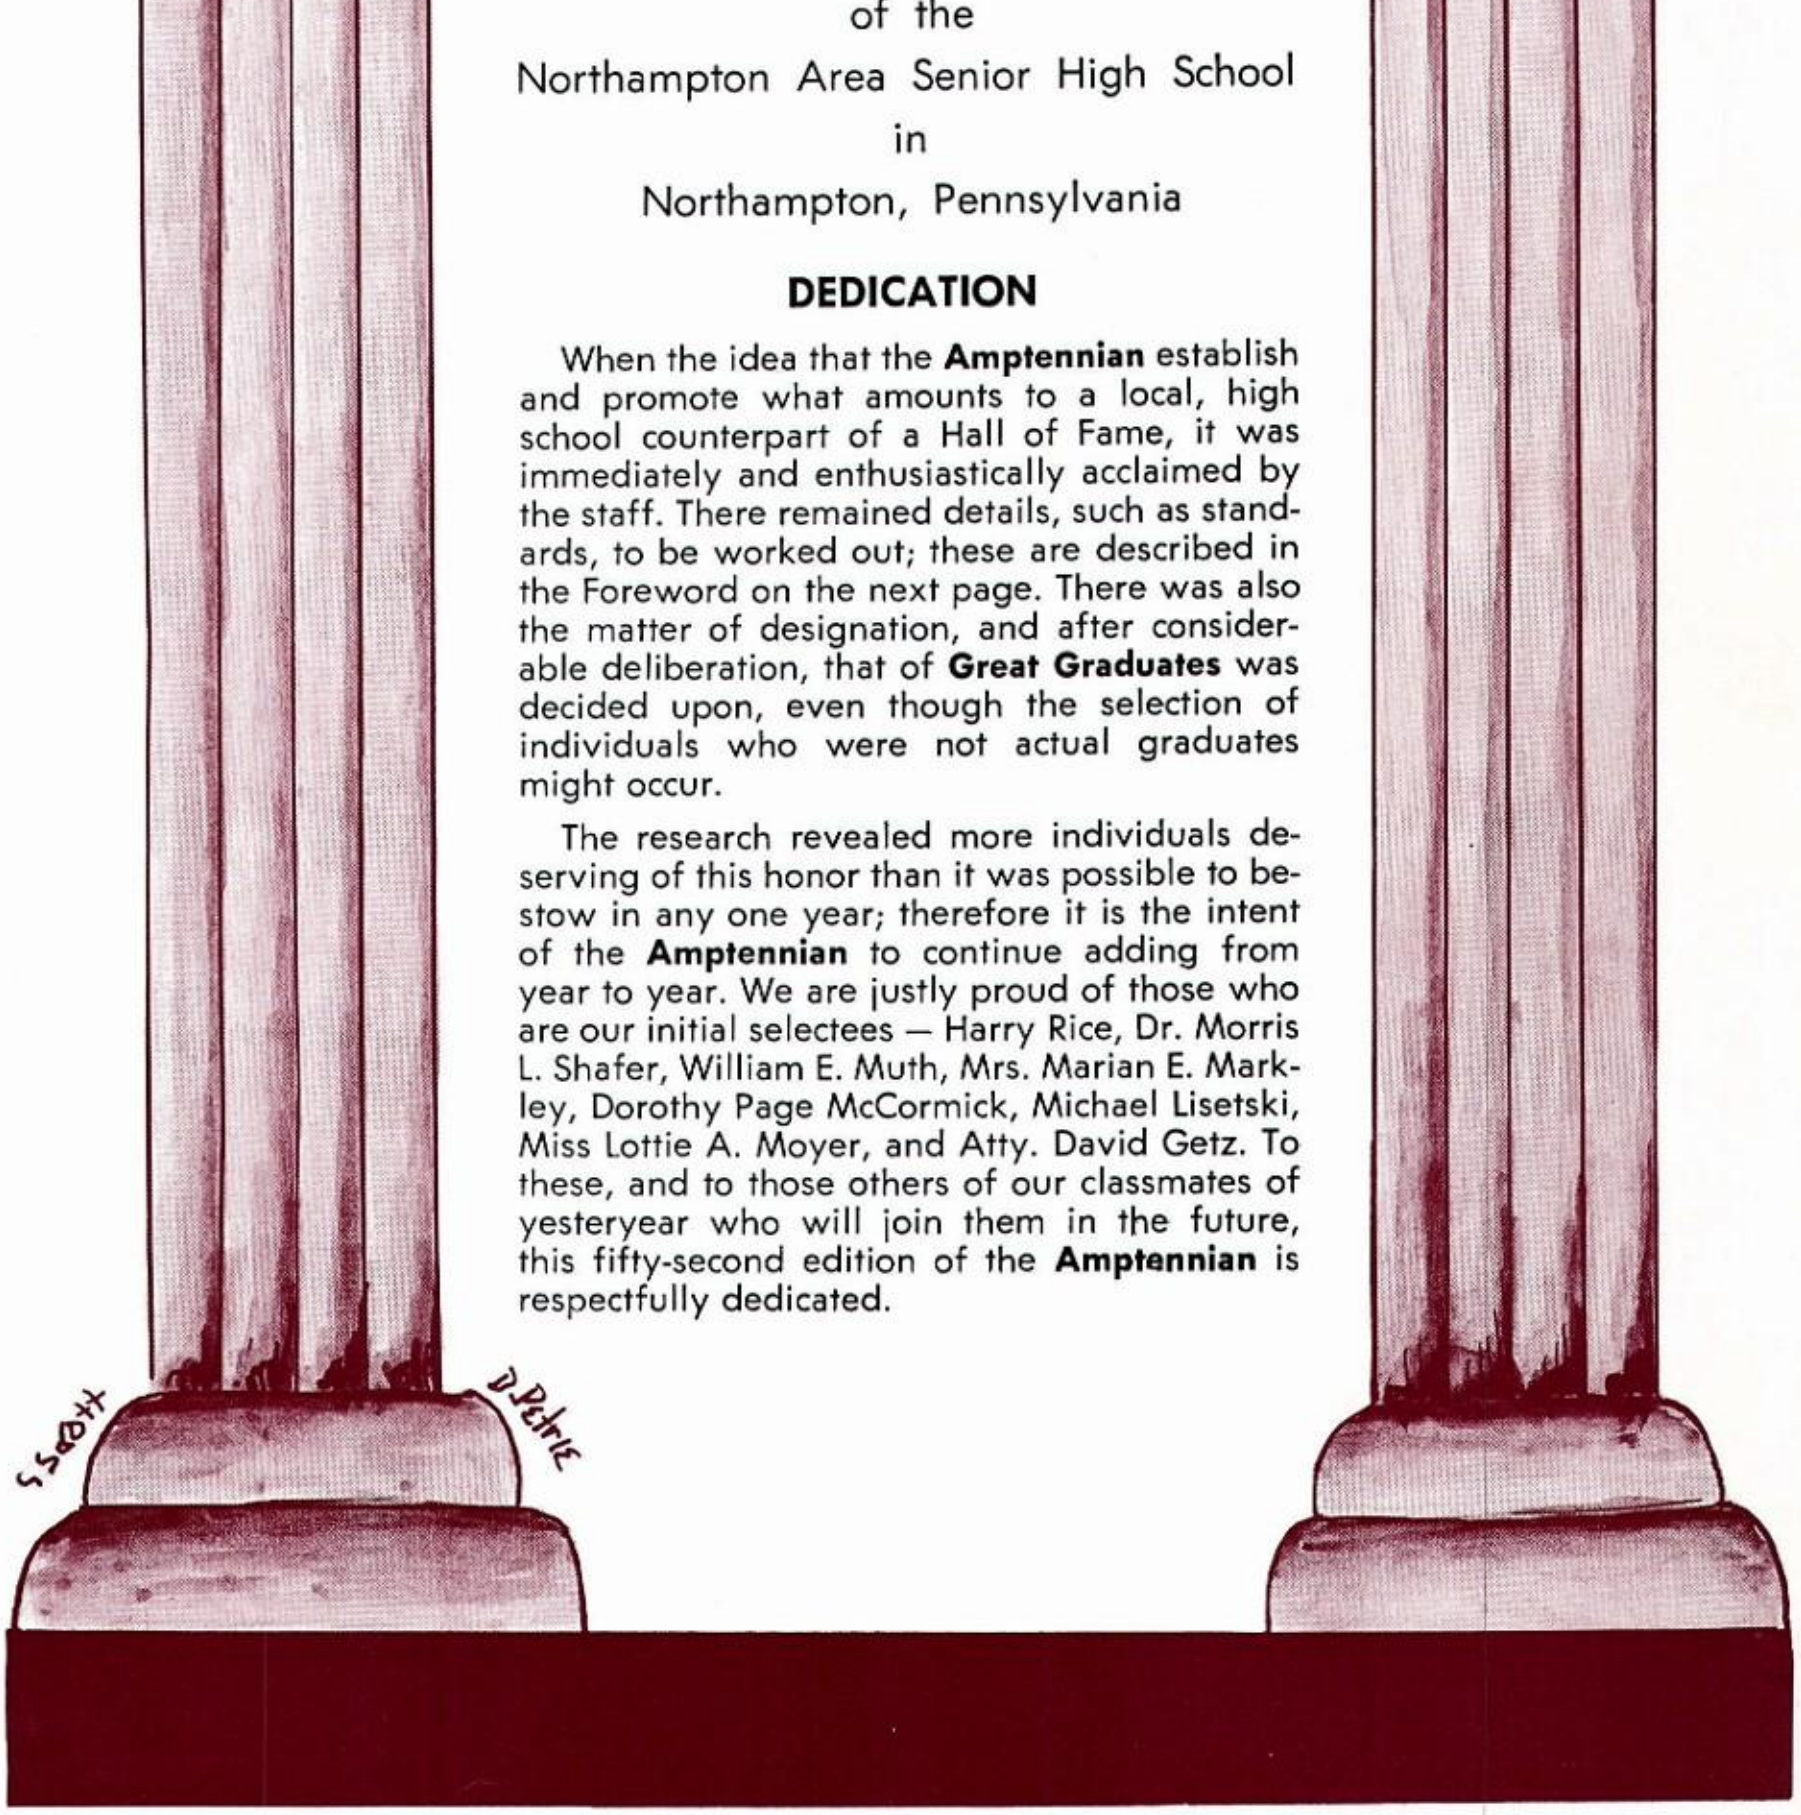
DEDICATION

When the idea that the **Amptennian** establish and promote what amounts to a local, high school counterpart of a Hall of Fame, it was immediately and enthusiastically acclaimed by the staff. There remained details, such as standards, to be worked out; these are described in the Foreword on the next page. There was also the matter of designation, and after considerable deliberation, that of **Great Graduates** was decided upon, even though the selection of individuals who were not actual graduates might occur.

The research revealed more individuals deserving of this honor than it was possible to bestow in any one year; therefore it is the intent of the **Amptennian** to continue adding from year to year. We are justly proud of those who are our initial selectees — Harry Rice, Dr. Morris L. Shafer, William E. Muth, Mrs. Marian E. Markley, Dorothy Page McCormick, Michael Lisetski, Miss Lottie A. Moyer, and Atty. David Getz. To these, and to those others of our classmates of yesteryear who will join them in the future, this fifty-second edition of the **Amptennian** is respectfully dedicated.



FOREWORD

As has been indicated on the preceding page, when the idea to recognize former classmates who had done something over and above the outstanding by way of accomplishment was broached, it was immediately pounced upon by the entire staff.

We wanted something similar to the Hall of Fame but with our own original touch. After picking everybody's brains, we came up with the title of **Great Graduates,** even though someone who might not be a graduate — but still a classmate — might conceivably be selected. **Great Graduates** it became.

Then came other problems; the establishment of standards, the selection of candidates, the development of appropriate art support, and others.

After careful research, we felt that persons who had accomplished something by way of a singlar or dedicated contribution to society or their fellow man, regardless of the factor of fame or fortune, and regardless of whether living or dead, should be considered. Then came the dilemma of who should be chosen. With the assistance of Mrs. Renee Snyder, our Alumni Secretary, it was possible to do this; and as the names emerged, so did the dawning concept that there were more individuals deserving of this honor than possible to include in any one issue of the **Amptennian.** Therefore, future editions will continue to add great graduates to join those here named.

Photographs of our honored classmates will be placed permanently in prominent positions in our **Amptennian** room where they will not only be an enduring testament of achievement coming from our school, but will also serve as an inspiration and example to each succeeding group of students.

In keeping with our theme, our art staff betook themselves to the classics in architecture to provide a fitting setting for this, our Hall of Great Graduates; the same influence was responsible for design of the format of our Senior Section and that of the Faculty.

We are at once proud, humble, and grateful that it befell our opportunity to initiate this means of long overdue recognition to those who have passed through our halls before us and this preserving for posterity values which otherwise would be lost.

To you, then, we present the **1966 Amptennian.** To us it is a classic; we hope it proves the same to you.

ACKNOWLEDGMENTS

To everyone who has contributed to the **1966 Amptennian** and its production, we are sincerely and humbly grateful. There are so many of you: our faculty advisers, the gang that worked mightily and nightly — and parents too — the Allentown **Call-Chronicle** Newspapers, including T. Milton Rockmaker and Harry Wall; the nominees for honor who so graciously cooperated, the special efforts of Mrs. Carl Shoemaker, Mr. David Rank and Mary Rank, the poetry contributions of Tim Hinkle, Linda Roberts, Linda Kloiber, Carol Hutton, Dennis Soffera, Barry Krock, Susan Anthony, Edwin Herd, Dennis Petrie, Susan Lerch, Sandy Dieter, the unceasing labors of the whole staff, classmates and other students, teachers, alumni, purchasers, contributors, patrons, and many more not possible to name. Without the help of all, this long overdue tribute to those who have traveled these halls before us would not have been possible. Thank you again.

Dr. Morris Shafer

One of Northampton's most distinguished graduates has earned his distinction by serving mankind as a teacher. When Morris Shafer graduated in 1921, he entered Temple University but transferred to Muhlenberg to graduate with honors in 1925 with the Ph.B. degree. He taught Problems of Democracy at Easton High School and attended Lafayette College to win his Master of Arts degree in 1929.

Still teaching, he entered New York University in 1930 to work on his doctorate, and was awarded the Doctor of Philolsophy degree four years later. He remained at New York University as a professor in the School of Education until 1943, when he entered the University of Pennsylvania School of Law to improve his knowledge of economics. He won his law degree in 1947 after serving on the school's Law Review Staff as an honor student, after which he practiced law in Allentown for several years. During this time he lectured at Rutgers University.

In 1956 he was asked to accept the Deanship of the Dickinson School of Law, where he served until his retirement in 1965. In addition to travel, he has done much scholarly pursuit, including maintaining the standard work, Henry, **Pennsylvania Trial Evidence**, current for four years. He and his wife, the former Mary Walker, of Allentown, reside in Wynnewood, Pennsylvania.

The chain reaction to the revolution in education touched off by Sputnik is still in progress.

The radical changes in curriculum and teaching methods, the conversion to meet the novel demands of the dawning age of technology with its Conants and Rickovers, are by far the better known aspects of the educational revolution. But they are by no means the only facets.

One of the most important innovations is the emphasis, at first voluntary but since required by law, accorded the consolidation of school districts, based on the premise that larger school districts would make possible more equal educational opportunity for all, regardless of whether the area was rural or urban in character. One of the resultant chain reactions was a state-wide wave of school construction — schools with facilities for developing the youthful mind which heretofore had existed only in the cities. Another was an emergent new kind of school administration, streamlined to fit the needs of new district organization.

Both of these chain reactions have been reflected here. They occurred almost simultaneously and the spark that touched them off came on July 1, 1950, when the school districts of Northampton and Bath Boroughs, and East Allen, Lehigh, and Moore Townships signed a historic contract to pool their students and resources. This Jointure, as it was designated, affected secondary education only, or the grades from seven to twelve.

On January 26, 1954, as the result of a district reorganization study by county superintendents for the Pennsylvania Department of Public Instruction, a meeting of all the individual school boards of the jointure together with those of Allen Township and Chapman Quarries Borough — these being indicated by the study as logically forming a part of the jointure — was held to discuss the future of this organization. Another need which was becoming more and more apparent was that for a new high school, and plans were initiated to study this problem as well.

Whose guiding wisdom

THE INTERIM COMMITTEE

From left, seated, Charles Hahn, Bath; Earl White, East Allen Township; Guy Rice, Lehigh Township; Russell Becker, Moore Township; John Dreisbach, Northampton; standing, Paul Balliet, Allen Township; Jacob Seiple, East Allen Township; Robert Jones and Woodrow Lindenmoyer, both Northampton.

Events moved in swift succession; on December 8, 1954, a plot of nearly twenty acres was turned over to the Jointure for a new school by the Universal Atlas Cement Division of United States Steel Corporation through its local plant manager, the late L. J. Boucher, as a contribution. Two months later, on February 9, 1955, a new jointure contract, now including Allen Township and Chapman Quarries, was signed. Planning for a new senior high school building was immediately initiated, and on March 16, 1958, ground was broken. Although hindered by difficulty, the building was opened for its student population by September 19, 1960, and it was dedicated on April 9, 1961.

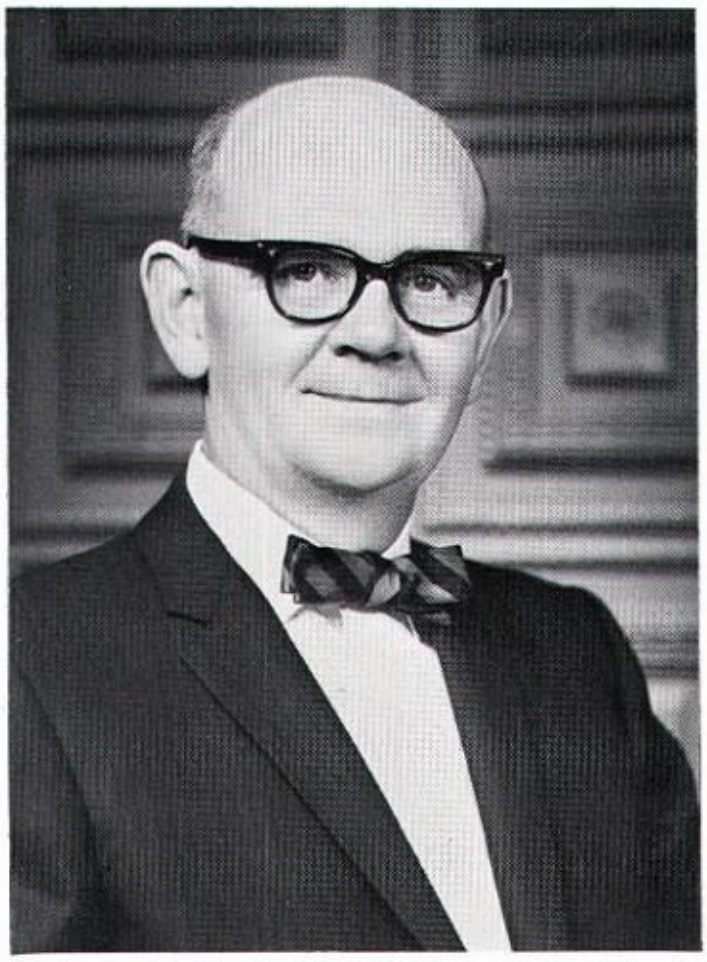
However, it was soon apparent that the population had already outgrown its housing, and a new wing, which solved this difficulty, was completed for occupancy by September of 1964.

Meanwhile, as the reorganization of the school district progressed, so did its administration. Individual school boards designated a School Committee to handle all matters except budget approval.

As of May 2, 1962, the jointure contract, which had formerly applied to the junior and senior high schools only, was expanded to include all grades from kindergarten to twelve. Paralleling this expansion in the physical sense was the opportunity to acquire an additional tract of twenty-six acres of land from the Universal Atlas Cement Division of United States Steel Corporation. The transfer was accomplished on March 21, 1966.

Still another parallel was the compliance with a state law mandating the merger of jointures into permanent unions as of July 1, 1966. Now in its final transitional stage, the School Committee passed out of existence, to be succeeded by an Interim Operating Committee, at annual reorganization proceedings on Monday, December 6, 1965.

leads our searching minds



ALBERT L. HENRY, B.A., M.A.

Superintendent of Schools

A staunch supporter of school and community, Mr. Henry brought many innovations with him when he assumed the reins of our schools five years ago. A man possessing warm interests in students and their futures, Mr. Henry has both seriously and competently been attacking his tasks at hand. For relaxation from his many duties and the active role he has been performing in the community, he hunts, golfs, or reads.

LOOK OVER NEW ACQUISITION

Twenty-six plus acres of land were turned over to the school last March by the Universal Atlas Cement Division of United States Steel Corporation. Above, Mr. Henry, left, looks over the deed with two prominent graduates, Mr. Woodrow Lindenmoyer, center, board president, and Mr. Richard Miller, right, plant manager, who made the presentation.

NORMAN A. LAUB, B.S., M.A.

Principal

A dedicated and devoted servant, Mr. Laub has been principal since 1945. Constantly laboring to improve the tranquility and efficiency of the school program, he has done innumerable things of which we can be proud. His enthusiasm in promoting activities, his belief in students, his ever-ready willingness to help any and everyone whenever the need arises, have not only been an inspiration to all, but a tribute to him as well.

MR. LAUB, AIDES CONFER

Working out a knotty detail on the school's schedule with Mr. Laub, center, are Mr. Albert Lerch, guidance counselor, and Mr. Alfred Laubach, administrative assistant.

ALFRED LAUBACH, Ph.B., M.A.

Administrative Assistant

Vivid and vivacious, Mr. Laubach and his friendly voice start us all off every day with the morning announcements. Tireless and indestructible, his hearty laugh echoes from every nook and cranny of the school, seemingly at once. Whether in direct contact with the students — either singly or collectively — or helping someone who needs special aid, this principal's right-hand-man is a friend to everyone.

ALBERT M. LERCH, B.S., M.Ed.

Director of Guidance and Activities

Have a problem? Mr. Lerch always has time to discuss it with you. Greatly in demand, his knowledge and understanding are sought by students, graduates, businessmen, and the community alike. His writing talents are sought by educational publishers. Although constantly busy with testing, interviewing, arranging assemblies, finding jobs for students and recommending them for colleges, "Doc" is never too busy to help even the least of us.

THERESA DORNBACH

Our busy-as-a-bee secretaries are not merely completely competent, they are truly an adoresome foursome.

JOAN DORNBACH

Between the ringing of the phone and the clicking of the typewriters, they greet visitors and take care of our innumerable needs.

FLORA OBRECHT, B.A., M.A.

Girls Guidance Counselor

Blessed with a sympathetic ear, no problem is ever too much for Mrs. Obrecht. Boys and girls alike come to relate their woes to her, and listen she does with a kind word and a cheery smile. Interviewing each girl personally, the better to understand and prepare her for the future, keeps her busy — but not too busy for the many extras asked of her.

PETER P. SCHNEIDER, Ph.B., M.A.

Boys Guidance Counselor

A giant of a man with heart to match, "Pete," as affectionately known by all, is always ready to lend a helping hand to any student in distress. An able leader, Mr. Schneider is our Student Council Adviser, as well as an assistant football and basketball coach. Besides these, plus his tasks as our guidance counselor, he crowds in teaching psychology.

FAY FENSTERMAKER

They also take dictation, handle records, keep files in order and up to date, proffer information and perform myriads of other tasks.

RITA SCHNEIDER

Not only are they indefatigable and indispensible; our young ladies are also chock full of cheer and charm — and we cherish them.

FACULTY GETS TACKLED TOO

Two of the teasingest tackles in school, Pat Haas, left, and Martha Funke, right, do a terrific tackling job on Mr. Albert Proctor, center, while selling programs 'mid a Catty game ballyhoo setting in the main hall.

Lester Ray Yeager

August 16, 1893 - December 8, 1965

A familiar figure to countless of our former classmates, Lester R. Yeager left us for his eternal reward last December 8.

A native of Roaring Creek, Pennsylvania, he attended the schools there and graduated from Locust Township High School.

He entered the teaching profession before going to college and taught in the Locust Township schools from 1913 to 1925. However, during that time he was called to serve his country in World War I and fought with the American Expeditionary Forces in France as a machine gunner.

In 1923 he entered Bloomsburg State (then Normal School) College and was graduated in 1925. It was at Bloomsburg where he met his wife, Bernice, also a student. He went on to Muhlenberg College later to earn his bachelor's degree in 1936.

It was also in 1923, on February 13, to be exact, that Mr. Yeager came to Northampton to teach in the Washington Building.

The following year, 1924, he became Principal of the Washington School and continued as such until the new Junior High School was completed. In 1928 he transferred to the new school to teach the manual arts, particularly metal shops, and mathematics. When the area schools jointure had been formed, he taught the same subjects in the Wolf Annex, Northampton, and the Bath Annex, Bath, from 1953 until his retirement in June, 1956.

His love of children and education was shared by Mrs. Yeager, who also taught, both full-time and as a substitute, for a considerable period of time in Northampton.

Both were ardent lovers of the outdoors and flowers. Their Northampton home was a showplace of color and they spent as much time as possible at their cottage at Promised Land Lake. However, Florida came to assume more and more the proportions of a promised land, and when Mr. Yeager retired, they moved into a ranch cottage in St. Petersburg, Florida. Here, under kindly southern skies and the hands of the Yeagers, it was not long before their yard burst forth in bloom.

The countless students who came under Mr. Yeager's guidance and influence, his colleagues, and the host of Yeager friends all knew and loved him; and all join in this tribute to a kindly man who has now passed over into his last Promised Land.

THE CUSTODIANS KEEP US CLEAN

Ever since our school was built, our custodians have been working faithfully to keep it new-looking. These devoted people keep us comfortable, even in the dead of winter; they wash the blackboards and floors, and do everything else to keep everything in tip-top shape. To these friends, who keep all a-sparkle, goes our appreciation. From left, they are Stanley Barthol, Ralph Rothrock, Stephen Milkovits, Robert Koehler, kneeling; Mrs. Florence Keifer, Mrs. Theresa Ebner, and Mrs. Joann Rabenold, standing.

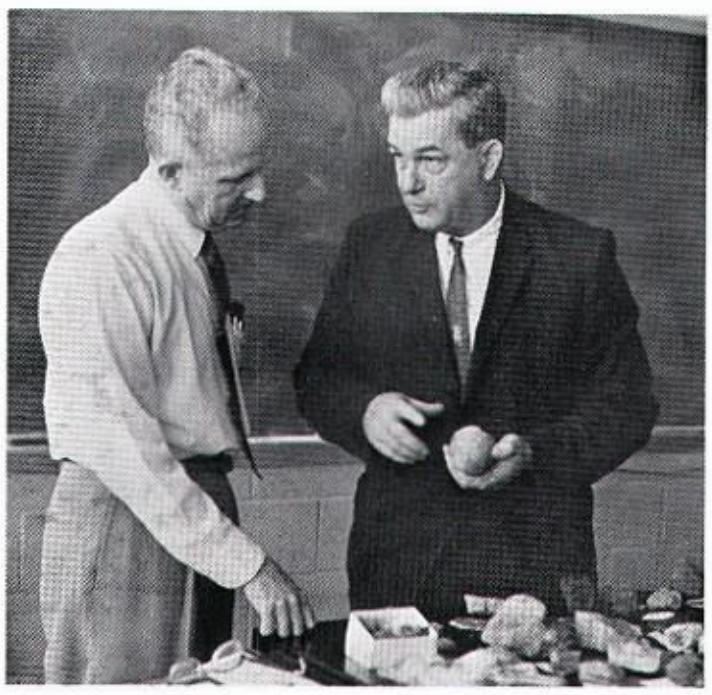
CAFETERIA STAFFERS KEEP US CAPABLE

Every morning, the cafeteria emits such mouth-watering aromas into the halls that it's almost impossible to wait for lunch time. When it comes, the tantalizing tastes conjured up by these cheerful ladies under the direction of Mrs. Mary Zirinsky, our dietician, make kings of us all. They also afford the pleasant atmosphere that makes lunch the delight of the day for both students and teachers. Thanks to them, all of us are refreshed, revitalized, and ready for work. From left are Mrs. Mary Messenlehner, Mrs. Eva Lerch, Mrs. Connie MacAdam, Mrs. Margaret Halbfoerster, Mrs. Frances Ruch, seated; Mrs. Andora Nicholas, Mrs. Lillie Wendrick, Mrs. Anna Glendenmeyer, Mrs. Isabelle Folland, Mrs. Mary Billy, Mrs. Gladys Loch, John Marks, who does the honors in the dishwashing room, Mrs. Eleanor Sage, and Mrs. Catherine DeNardo, standing.

THERE'S A TIME TO LAUGH

Mr. Al Laubach always finds time for a hearty laugh, and manages to infect the office population too. In this case it's Secretaries Joan Dornbach, Judy Turick, Theresa Dornbach, and Mr. Alek Erdosy.

A TIME TO TALK SHOP



Mr. Robert Snyder talks science with Mr. Joseph Kish at open house.

A TIME TO SNACK

Mrs. Cecelia Fink and Mrs. Harriet Schadt snack at the Teachers' Christmas Tea.

A TIME TO CHAT

Mr. Larry Croyle, left, Mrs. Linda Wimmer, center, and Mr. Theodore Newton, right, all newcomers to Northampton this year, get together for a get-acquainted chat.

William E. Muth

A man whose entire life has been characterized by modesty and service to his fellow man is William Muth, our classmate of 1909, who tells us that courses then were limited; English, social studies, mathematics, sciences, and Latin were required of everyone; discipline was firm, but understanding, and academic accomplishments were usually high.

After graduation, he studied for a year at Franklin and Marshall Academy, then at Franklin and Marshall College. His post graduate work was done at Columbia University, Harvard University, and at Clermont University, France, under a federal grant. Along the line he won his doctorate.

During World War I he served in France with the 79th Division. Accomplished in several languages, he also served as liaison interpreter between American and French military forces.

His first teaching position was in St. John's Military Academy, New York. Most of his career, though was spent serving education and young people as Supervising Principal of Pen Argyl Schools. He retired in 1963.

A world traveler, Mr. Muth is also active in research, including foreign language translation, and in community affairs, including the Selective Service Board and Board of Health, in addition to being an enthusiastic horseman, hunter, and fisherman. Honored many times, he continues to serve his fellow man.

A Message to the Seniors

Finally the day has come; the day we've all been awaiting so impatiently. But, as we stand, expectant, for our diplomas, our minds wander. We recall many wonderful and pleasing times we experienced during our high school years. Now they are gone forever, and many of us wish we had them to live over.

Although we shall never again experience them, they will remain indelibly in our minds and hearts. We have accomplished much together; the record of the Class of 1966 will long be remembered. However, memories will not help us succeed in life. We will no longer be high school students, but young adults trying to achieve our goals. Many of us will enter the workaday world immediately; some of us will don uniforms; others will further their education in college. But whatever we will be doing, we must all concentrate our efforts for the future.

To all of you, fellow Seniors, go my sincere thanks for everything. May you experience only the best of success in all your endeavors.

That familiar face that's always bobbing in the forefront at the drags, the Blue Lantern, or the Danielsville Rod and Gun Club is Bob's. Occasionally he breaks the pattern by bobbing up afield with gun in hand or on the playing field, ball in hand. He has grease in his blood, and he wants to bob up from 'neath your hood; the more smoothly your car to run.

Glenn A. Beil

If it involves sports, you can bet Jay knows all about it. If he's not playing ball or rooting for his favorite team, he reads about sports or "whodunits." Sometimes he talks about them at the Danielsville Rod and Gun Club. He also talks about Navy uniforms — that's no mystery.
Activities: Chorus 1; Vespers 1.

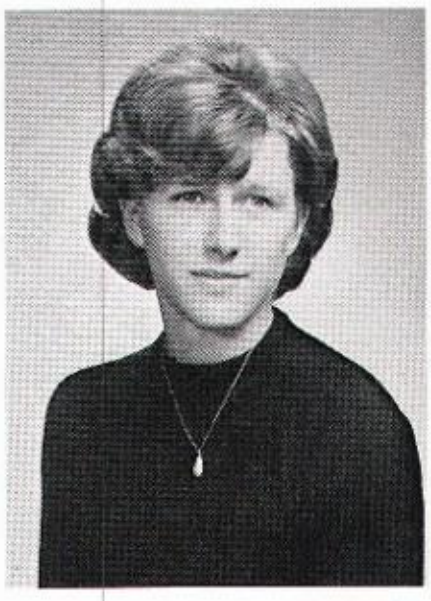
Tall, slender, and brown-haired, Andy inoffensively but indolently ambles his way through life. He defies drive, even when he's wending his way toward Hillside at the helm of his Happy Honda or his jabbering Jeep jitney. A last-minute man, Andy's determined drive'll get him there — at the last minute.

Barry W. Saylor
Allen Township
General

A sly satirist, Barry continually manages convulsive comments that are really classics. A good sport, he takes 'em all in, but baseball he manages to manage. He also manages to cover the junkyards and use Miller's garage to work on the '55 Chevy. Look for Barry under a hood — even in uniform.
Activities: Meteorology Club 1, 2, 3; Courier 1; Baseball Manager 1, 2, 3.

Nancy L. Schaeffer
Lehigh Township
General

If you're looking for a merry maid, try Nancy — her winces are jolly jokes — all jumbos. She'll give out with a horse laugh from atop her spirited steed and, if you'd see her at Edgemont, you'd call her a good skater. A good skate can go a long way with a laugh not too hoarse.



Alice Schaffer
Northampton
General

Alice, smiling, cheerful, always ready to help, is a real picture. What's more she's a bug on pictures — a shutterbug. She's a needlebug, too, and the dresses she sews are pictures. If you saw her in candy stripes, you'd call her a picture; and we picture her in nursing.
Activities: Fashion Show 1, 3.

TEN TWINTUPLETS MINUS TWO

Not every class has four sets of twintillating twins who keep things enlivened and atwitter around the place. From their twintwinkling eyes to their twinteasing personalities, they twintantalize twintwice over. From left, from front to rear, they are Barbara and Bonnie Ruch, Jean and Joan Meixner, James and Joseph Pail, and James and John Szilagyi.

Marian Markley

A country girl, Marian Hall came from her Treichlers home every day to graduate from Northampton High in 1923. As a commercial student, she had no difficulty in finding secretarial positions, winding up as office manager for one of the largest insurance companies in the state.

At twenty-one she became a committeewoman, her interest in politics deepened, and she served as assistant to the Majority Leader and Speaker of the House of Representatives in the General Assembly, then to her Congressman. In 1950 she became the first woman to represent Lehigh County in the Pennsylvania Assembly and has continued ever since.

Her interest in children with all types of handicaps, including the mentally retarded, won not only legislation but her appointment to the Pennsylvania Board of Public Welfare, plus many important committee posts, including education, and special assignments. In 1963 she was named the first woman chairman of the Committee on Motor Vehicles and Highway Safety.

She has been honored many times, including four times by Governors, and has served on practically every existing worthy welfare project. Last September 17, her thousands of friends honored her at a testimonial in Allentown, and now we have the privilege of doing likewise. Affectionately known as "The Lady from Lehigh," she resides with her husband, Franklin H. Markley, at Macungie R. 1, still a country girl.

A Message to the Juniors

For the past two years we, the Class of 1966, have watched you, the Class of 1967, develop and mature. We feel now that you can shoulder the responsibilities of Seniors capably, faithfully, and successfully.

The demands for leadership are ever-increasing. It will be your responsibility to lead the underclassmen. You must develop school spirit by supporting the many activities throughout the year. To do this you must act as a team. At the same time, however, you must remain as individuals by attaining your own personal ambitions. The higher you set these standards, the better your leadership will be.

We trust that the honors and privileges we have bestowed upon you will be carried out to the fullest and the success you attain will be that of the highest.

A Message to the Sophomores

During the past year you, as Sophomores, have been at the bottom of the ladder. You had to look up to and respect the upperclassmen. Now you are in a position which is no longer that of the lowest in seniority. You do not have to show the leadership qualities of Seniors, but you do have a number of added responsibilties.

It is your duty to develop your qualities in the areas of study and leadership to your utmost. You will find that the better you prepare yourselves, the more successful your Senior year will be.

To you who are about to become Juniors go our best wishes for continued success. May you all grow tall in wisdom, knowledge, and leadership.

Dorothy Page

Northampton's outstanding contribution to the stage and theatre, Miss Page was, in real life, Dorothy Stofflet, daughter of Mr. and Mrs. Levi Stofflet, 1664 Washington Avenue. A member of the Class of 1922, she left school to work a short while at the Universal Atlas Cement Company, then furthered her education at the Penn Hall School for Girls, Chambersburg, and Cedar Crest College.

Her beauty made her a cover girl for the **Saturday Evening Post** and the **Ladies Home Journal** in the early '20's. Her rise to stardom was meteoric. In 1924 she was named one of the ten most beautiful women in the United States. Then, she won the "Youth of America" talent contest by famed bandleader Paul Whiteman. She sang with the Whiteman and other leading orchestras, then became a leading NBC radio star in her own right, with shows broadcast from Detroit, Chicago, and New York. By 1934 she was named the most beautiful girl in radio.

Her radio success attracted the motion picture producers, and in April, 1934, she was signed by Universal Pictures to co-star with the leading male actors of the day. Among them was a series of westerns. She visited home often, and addressed the Junior High School on October 10, 1944.

At the time of her death on March 26, 1961, she and her husband, Henry McCormick, resided on a ranch at Fresno, California. There are two daughters. She was buried in Northampton. Miss Page did much of the experimental screen testing for television, and if you watch the late shows, you may see and hear her, riding and singing across the plains.

The National Honor Society Installation Team is, from left, Brenda Creyer, Scarlet Smith, Linda Kloiber, seated; Darle Strohl and Allen Weiss, holding torch.

NATIONAL HONOR SOCIETY

Northampton's Chapter of National Honor Society has been an active influence in the school since it was chartered in 1927. Its goal has ever been to exemplify the four Society cornerstones of scholarship, leadership, character, and service. Supervised by Miss Marion Laubach, senior membership is limited to the top fifteen per cent, five per cent inducted at the end of the Junior year. Recently, though, the Constitution was amended to permit this third of the membership to be admitted during the Junior year, thus affording greater junior participation and experience.

STUDENT COUNCIL

Our legislative body, the Student Council, can succinctly be described as "Democracy at Work." Comprising a delegate from each homeroom, it represents student participation in school government.

Planning dances, maintaining and improving school spirit, and promoting student-teacher relationships are but a few of the Council's functions which, under the guidance of Mr. Peter Schneider, are performed with speed, efficiency, and success. By working with present-day problems, our councilmen are building qualifications for meeting and solving problems and difficulties of the future.

CHEERLEADERS CHARGE CHAMPS

"Ready-O-O-O" is the stimulating cry of the Cheerleaders which charges up the fans which charges up the teams to win. TRI-HI-Y AIMS LOFTY

Ever since 1917, organizations dedicated to promoting high standards of character and conduct have flourished at Northampton. Initially they were "Camp Fire Girls," then "Girl Reserves"; now they are "Tri-Hi-Y," signifying affiliation with the Y organization. For some years there was a boys' Hi-Y as well. Presently there are two chapters, composed of Juniors and Seniors, respectively. Both are engaged in anything that will improve the school or benefit their fellow man.

Shooting came back into its own this term with the rebirth of Archery and Rifle Clubs. Archery existed in the Junior High under the direction of Mr. Charles Bilheimer from the early '30's to 1948; it was reborn this year under the guidance of Mrs. Ruth Huber, adviser. Competition with other schools is planned. A new Rifle Club also rose this year from the shades of one directed by Mr. Henry Weir from 1950 to 1957. It occupies a brand new range in the school, and Mr. Donald Kindt, adviser plans an official team in competition next year.

Moments

Crisp, autumn days, football games, cheers, a victory dance;
Snowflakes, red velvet gowns, Christmas songs, merry faces;
Fine actors on a stage and a Cupid's arrow;
The awaited finals of basketball and wrestling;
Small raindrops, flowers budding forth, time is rushing;
An artist's brush, tempera paint, parallel bars, high bar;
A high pole vault, hundred yard dash, and baseball bat;
Warm sun, a king and queen, and suddenly the time;
The practiced procession in gray caps and gown;
A single white rose, turning a class ring, and tears:
Then offstage, hurried handclasps, and the unending journey through life.

THESE PRODUCED

STAFFERS LEARNED WHAT WORK IS

When the monstrous task of creating and assembling a yearbook dawned upon the realization of the hapless Seniors and several selected Juniors, the immediate result was utter chaos. They also learned very early that they were very busy, and as the term progressed they became progressively busier, and busier, and busier.

As soon as it was possible to organize the confusion, work and time schedules were established, and the innumerable tasks involved began. Heading the staffs under Chief Editors Mary Lisetski and Paulette Kutzler were Assistant Editors Joe and Jim Pail, Jeanne Potak, Literary; Tony Kohl, Sports; Edwin Herd and Dan Millington, Photo; Eileen Borger, Layout; Janice Souilliard and Donna Derkits, Business; Annette Snyder and Brenda Creyer, Typing; and Cynthia Scott and Joanne Schwartz, Art.

It is impossible to describe the hours and painstaking work contributed by these and everyone on the staffs; the hectic, last-minute assignments, the rewrites in large doses taken home at night, the frantic touchups. Now the suffering is over, though, and it was really fun. Besides, the tribute we could pay to our former classmates and the start of something our school has long needed, plus the wonderful, never-to-be-forgotten camaraderie we'll always cherish, were more than worth the trouble. Here it is: the 1966 **Amptennian.**

OUR AMPTENNIAN

This poem, done this year by Ed Herd, of Photo, describes our **Amptennian** problems so well we had to include it.

OUR PART

For years I've read Amptennians,
And noted with delight,
Amazing talent there displayed,
But now, I'm sick with fright.

My senior year is almost past,
And I should do my part,
To make this year's the best of all,
But don't know how to start.

If all others felt as I do,
And gave up without a try;
Then deep remorse would soon set in,
Before the ink was dry.

But our conscience won't permit us
To do other than our best —
Seems we feel a guiding spirit,
As we try with added zest.

We'll emulate the others,
Whom we hold in high esteem;
And I hope this humble effort,
Tells exactly what I mean.

Thanks to dedicated teachers,
And all who made a start;
I've found we can't accomplish much —
Unless we do our part.

For those who upraise their voices —

THESE ARE MUSIC MAKERS

Pomp, color, swaggering strides, and swash-buckling silhouettes are as much a part of high school music, bandwise, as the tunes they toot. Music means marching under sweltering skies or wintry gales, perpetual practicing, packing and unpacking; but music is fun.

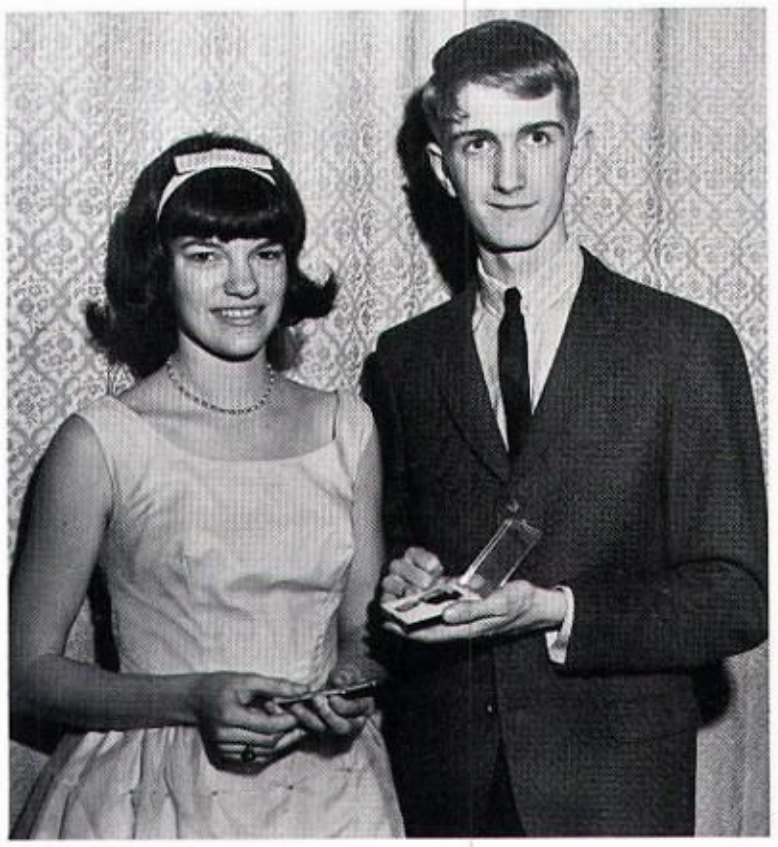
TRADITION BECOMES HISTORY

Public speaking contests, the oldest continuous activity in our school program, came to an end with that held February 10, 1965. It started as an Oratorical Contest for Seniors in 1913; a Junior Speaking Contest was added in 1927, after which the Senior event was discontinued. They were a Lincoln's Birthday activity.

Superseding the event this year was an extemporaneous speaking contest held during the school day on several occasions. Eliminations among Seniors, Juniors, Sophomores, respectively, took place; then a final contest to determine the best of the grade winners was held in April. The spirit of the contest still remains — the form is new.

THE OLD GIVES WAY —



Paulette Kutzler and John Gill, above, now seniors, were first place winners of the final Junior Speaking Contest last term. Second place winners were Mary Lisetski and Richard Burbes.

THE CURRICULUM EXPANDS

The drive toward unlocking the secrets of space, the increasing demands of an age of technology, the rapidly expanding need for improved communication, both at home and worldwide, have had their effect at Northampton. In response to these challenges, subjects such as modern and advanced mathematics, earth and air science, advanced English, and a foreign language program extending to the intermediate elementary grades, have made their appearance within the curriculum. Meanwhile, students aspiring artisan skills were this year able to attend specialized classes at Bethlehem Technical High school (see page 102) for half-day sessions. New emphasis has become a part of all other curricular areas, as well, in a total school effort to provide the best education possible for all, regardless of course or subject.

A standard text in Mr. Michael Lisetski's Problems of Democracy class is the daily newspaper. Here students, among them A. George, C. Miltenberger, B. Kasper, T. Gabryluk and M. Benetsky, in foreground, not only read news, but do analyses as well.

Michael Lisetski

Undoubtedly the most televised Northamptonian, Mike Lisetski has become a household word in sports across the nation.

It almost didn't happen. Coming from a poor family, Mike entered high school in 1923; then left to go to work. Several years later, though, he managed to return and graduated as a comcercial student with the Class of 1930.

It was a sacrifice, but he wasn't finished sacrificing. Working his own way through, there followed a year at Allentown Preparatory School, and four more years at Muhlenberg College.

Through it all, his deep-seated love of sports helped motivate and sustain him. A three-sport athlete who excelled in all, he has become a legend of clean sportsmanship to millions of Americans and an idol to as many youngsters.

Mike teaches — and very well — Problems of Democracy here at Northampton, but to the sports greats he's a top National Football League official (15 years) and more recently a championship game official. He also officiated high school and college basketball for 30 years before his retirement in 1958, and is a member of the International Association of Approved Basketball Officials. There isn't a local, state, national or international sports organization of repute that he doesn't belong to or isn't respectfully noticed. He doesn't forget home, either, for he was assistant coach of football at Northampton 24 years and has coached baseball since he started teaching in 1935.

A modest man, Mike has helped honor many others; honor to him is long overdue. He is married to the former Mary Christman; they reside at 1510 Washington Avenue, Northampton, and are the parents of a son and daughter.

GRIDIRON

With perennial coaching wizard Al Erdosy and 18 returning seniors, Northampton's hopes for another championship season were high. HOCKEY HAILS, HEROINES HEARKEN

Led by Co-Captains Karen Fehnel and Linda Henry, our girls sallied forth into their second season of field hockey competition. Constant, gruelling practice and determination showed in their play, but determination alone is not enough to win games. Coach Joan Kremus and her girls did their best, but were forced to bow in the face of more experienced teams.

The season ended tremendously and uproariously with an all-boys team of 13 challengers playing the girls for a prize of 1000 lollipops. The game ended in a 1-1 tie before the largest afternoon crowd of the year.

Field hockey has come a long way in its two years in Northampton, and the beginnings of a championship team are in the making.

LOOSE BALL

Get it, Sharon — and she did.

BASKETBALL, BEAUTY BLEND

It was three years ago that girls basketball returned after a lapse since 1936. Linda Henry, Karen Fehnel, Jean Weidman, Sharon Riegel, Paulette Kutzler, Alyce Baker, and Carol Seyer were all sophomores then, and not a game was won. This year, led by Coach Joan Kremus and Co-Captains Linda Henry and Karen Fehnel, the team bounded off with unlimited energy to take 13 out of 16 games and tie for the league championship. Although the playoff with the Catasauqua lassies was lost 47-33, our achievement in three years has been nothing short of remarkable — and there'll be another playoff again — in our favor.

DIAMOND DYNAMICS

An undeniable sign of spring is activity on the ball field, and this year, as always, there was plenty of activity. Baseball is the national sport, and Head Coach Mike Lisetski and his assistant, Jim "Casey" Oplinger were out in fair and foul weather relentlessly drilling the Kids in the precision, timing, and exactness needed for a winning team. Sparked by pitchers Pete Schneider, Denny Onkotz, and Denny Hoch, and sluggers Mike Misko, Joe Wargo, Dan Meyer, George Oplinger, and Angelo Colarusso, they were still undefeated at the time the **Amptennian** went to press.

TRACK TEAM TEEMS TALL, TENSILE

Ending each workout with the cry, "We are a championship team," our track squad has had but one objective: to cop the Lehigh Valley League title. Coach Bill Stranzl had a plan of action; it was to work hard and improve on everything done heretofore. He also had material; Fegley and Drummond for fast starts and faster sprints, Nederostek's power in the shot-put and Dornbach's in the discus, Herschman in the pole vault, Harhart in the broad jump and Marth, the high jump. With these starters and backup material, it looked like the Kids had the makings of champions. By the time the **Amptennian** went to press it looked even more like it:

Lottie A. Moyer

The symbol of Florence Nightingale is a lamp, and Miss Moyer, who has been giving light of many kinds to her fellow man all her life, is still shedding light — on lamps.

Active in the Literary Society, she graduated from Northampton High in 1909. There were three on the faculty and 13 in the class. She studied rapid calculation in the American Commercial School, Allentown, and was a bookkeeper at the **Chronicle and News** before entering Lankenau Hospital, Philadelphia, in a day of no miracle drugs but "plenty of deaths in the flu epidemic."

As a nurse, she performed hospital and district (public) nursing duties in New York, Vermont, Colorado, and California, including operating room and X-ray. Returning to Pennsylvania, she undertook more study at Pennsylvania State University and was the first and, for some years, the only school nurse in Northampton. In addition to her health duties, she taught home nursing to seniors and that famed institution of yesteryear — continuation school — to working girls. She recalls giving written audiometer tests to as high as 40 students at one time. She retired in 1956.

An avid hobbyist, she turned to collecting lamps, became an authority, and joined the Rushlight Club in 1946. She has done authoritative writing and research on lamps and is in great demand as a speaker. Miss Moyer resides in the home where she was born, 314 E. 10th St., Northampton.

Atty. David Getz

One of three Northampton brothers who became attorneys, David Getz was born in Freeland, Pa., but grew up in Northampton. His brothers were Howard and Benjamin.

He graduated from Northampton High School in 1919, Lehigh University in 1923, Harvard University Law School in 1926, and was admitted to the Bar in September of that year as a member of the firm of Groman and Rapoport, Allentown.

Locally, he served as Northampton Borough and Northampton Borough Municipal Authority solicitor and maintained offices in the community for some time.

He belonged to the nation and the world, though. In 1941 he was admitted to the United States Supreme Court and argued a famous railroad safety case there. Called upon to handle many international matters, he made many trips to Europe, practiced law in Paris from 1953 to 1959 as representative of a Washington firm, and was in Prague, Czechoslovakia when Hitler marched in.

He was also the vice president of the Swedish-American Pulp Co., Frankfurt, Germany, and became a European movie producer for a time.

In 1937 he was married to the former Ilse Bechhold, New York City artist, in Czechoslovakia. They resided at 1055 N. 22nd St., Allentown. He died January 19, 1965. There is one daughter, Mrs. Patricia Preziosi, of Athens, Greece. Another Northampton High graduate, Atty. Irving Coleman, describes Atty. Getz as, "Have briefcase, will travel."

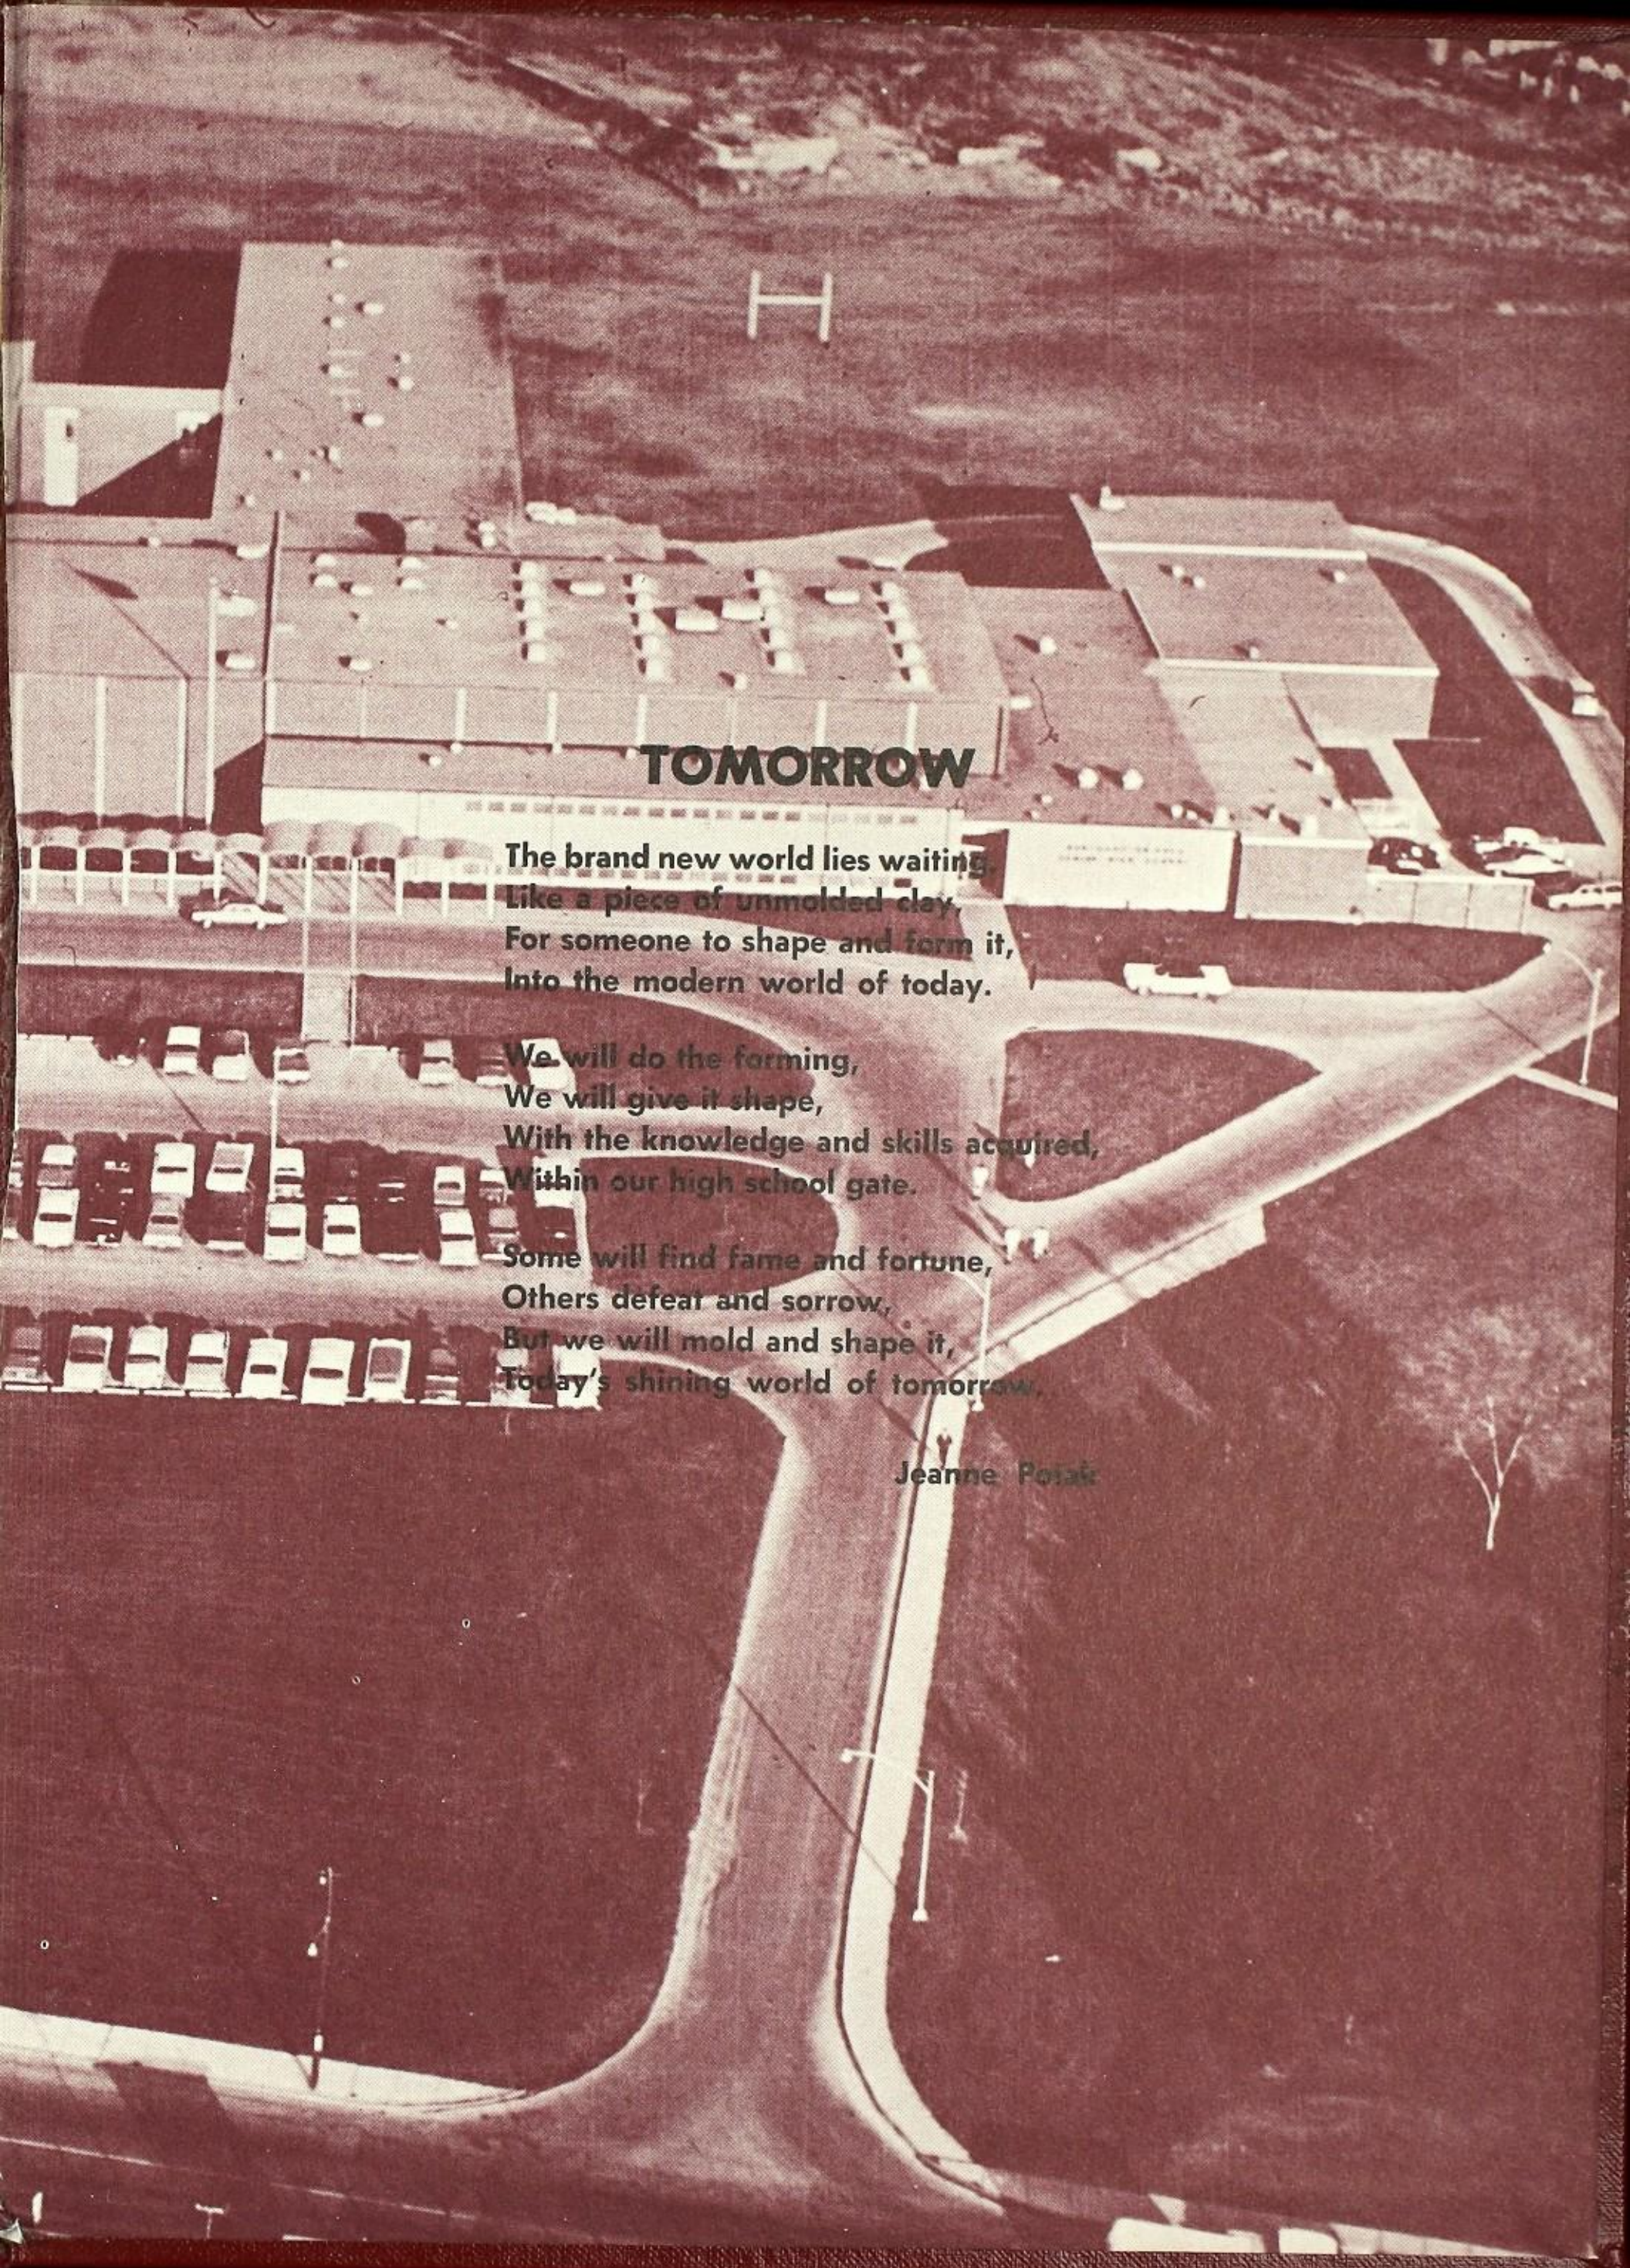
QUACK

Now that the years are past and o'er,
We're just as dumb as we were before,
I hadn't the touch,
So I didn't learn much;
But I could have learned more,
If it weren't a chore,
In those wonderful days that are past.

I have only one knack,
And that is to "quack,"
I could have quacked more,
If it weren't a bore;
So I was kicked out of school,
For breaking a rule,
In those wonderful days that are past.

Dennis Soffera and Barry Krock



TOMORROW

The brand new world lies waiting,
Like a piece of unmolded clay,
For someone to shape and form it,
Into the modern world of today.

We will do the forming,
We will give it shape,
With the knowledge and skills acquired,
Within our high school gate.

Some will find fame and fortune,
Others defeat and sorrow,
But we will mold and shape it,
Today's shining world of tomorrow.

Jeanne Potak
